

CEE-BEE CLEANER A-883

by Cee-Bee®

d a t a s h e e t

CEE-BEE CLEANER A-883 is a highly concentrated, non-solvent gel specifically designed to clean aircraft exterior surfaces. Also for degreasing engine exteriors prior to tear-down.

BENEFITS

1. Very effectively penetrates and removes heavy greasy soils.
2. Clings to vertical and overhead surfaces.
3. Rinses off easily without streaking, even after drying on the surface.
4. Safe on high strength steel, aluminum, magnesium, titanium and other common aircraft structural metals, good quality paints and acrylic plastics.
5. Does not contain any material considered toxic by state or federal regulations.
6. Won't stain after dwell time. Has a pleasant, non-offensive odor.
7. Environmentally friendly, surfactants biodegradable.
8. Non-flammable.

CONFORMS TO

- **MIL-PRF-87937D, TYPE III (QPL)**
- **EPA 796.3100: AEROBIC AQUATIC BIODEGRADATION**

NOTES PRIOR TO HANDLING

Before using your McGean-Rohco, Inc. products, all safety and operating instructions should be understood. If you have any questions, please contact your McGean-Rohco representative before proceeding.

USE PROCEDURES

Heavy greasy soils: Use undiluted. Will cling to vertical and overhead surfaces for maximum cleaning action.

Moderate to heavy soils: Mix 1 part cleaner with 2 to 10 parts water.

Light to moderate soils: Mix 1 part cleaner with 10 to 20 parts water.

With water rinse

1. Apply cleaner with mops, brushes or non-atomizing spray. Start at the bottom of the surface to be cleaned and work upward to avoid streaking.
2. Allow cleaner to dwell at least 5 minutes until soils are penetrated, then agitate surface with a brush or mop.
3. Rinse thoroughly with high pressure water, starting at the top and working downward.

The more concentrated cleaner solutions will require additional rinsing to avoid streaking and filming.

Without water rinse

1. Wipe the surface with rags or mops saturated with cleaner solution to loosen the soils.
2. Remove loosened soils with clean, dry rags or mops, turning frequently to avoid re-deposition of soils.

Spray-on Cleaning and Degreasing Engine Exteriors

1. Mask all openings to the engine interior (the inlet, exhaust, fuel and oil lines left open, bleeders, breather tubes and open electrical connectors.)
2. Spray, steam, or foam on Cee-Bee A-883 Cleaner. Allow to dwell 10 to 20 minutes.
3. Flush with warm or hot water.

PROPERTIES

- Blue gel with a pleasant odor.
- No flash point.

PRECAUTIONS

- Irritating to eyes and skin. Avoid contact. Rubber gloves and chemical goggles or face shields are recommended. Some form of eye protection is always absolutely essential.
- In case of accidental contact with eyes or skin, flush thoroughly with water. If irritation persists, seek medical attention.
- Do not take internally.
