

CEE-BEE CLEANER 280GEL

by Cee-Bee®

d a t a s h e e t

CEE-BEE CLEANER 280GEL is ready-to-use gel specifically designed to clean aircraft exterior surfaces, component parts and gear and flap well areas.

BENEFITS

1. Effectively penetrates and removes heavy greases and soils.
2. Clings to vertical and overhead surfaces.
3. Free-rinsing.
4. Safe on high strength steel, aluminum, magnesium, titanium and other common aircraft structural metals, good quality paints and acrylic plastics.
5. Pleasant, non-offensive odor.
6. Environmentally friendly with biodegradable surfactants.
7. Non-flammable.

CONFORMS TO

- **AMS 1526B (Cleaner for Aircraft Exterior Surfaces Water-Miscible, Pressure-Spraying Type)**

NOTES PRIOR TO HANDLING

Before using any Cee-Bee Aviation product, all safety and operating instructions should be understood. If you have any questions, please contact your Cee-Bee representative before proceeding.

USE PROCEDURES

1. Apply cleaner as received with non-atomizing spray, mop or brush. Start at the bottom of the surface to be cleaned and work up.
2. Allow cleaner to dwell at least 5 minutes or until soils are penetrated. If necessary, agitate the surface with a brush or mop.
3. Rinse thoroughly with water using either high pressure or high volume spray, starting at the top of the surface cleaned and working down.

PROPERTIES

- Blue gel with a pleasant odor.
- No flash point.

PRECAUTIONS

- Irritating to eyes and skin. Avoid contact. Rubber gloves and chemical goggles or face shields are recommended. Some form of eye protection is always recommended.
- In case of accidental contact with eyes or skin, flush thoroughly with water. If irritation persists, seek medical attention.
- Do not take internally.
