

HONEY BEE™ DEODORANT 20

by Cee-Bee®

d a t a s h e e t

A HIGHLY CONCENTRATED QUATERNARY AMINE BASED LIQUID DEODORANT FOR USE IN PORTABLE TOILETS.

ADVANTAGES

1. Quickly dispels toilet odors.
2. Improved colour and fragrance with better odor stability and pleasant scent.
3. Prevents odor formation.
4. Controls odors for long periods of time.
5. Safe on all materials commonly used in toilets and refuse handling equipment.
6. Contains no phenolics, formaldehyde or heavy metals.
7. Controls the deposit of sludge on recirculation pump screens.
8. Controls growth of odor-producing waste by-products.

PORTABLE TOILET SERVICING

- The recommended dilution is 1-part Honey Bee Deodorant 20 and 99-parts water. The recommended interval to change tank solution is every 48 hours.

PROPERTIES

- Cherry scented, thin blue liquid. No flash point.

PRECAUTIONS

- Avoid eye contact and prolonged skin contact. For contact with eyes, flood with water. Seek medical attention if eye irritation persists. Use caution when spraying. Spray mists may irritate nasal linings. Always refer to Material Safety Data Sheet for detailed information.
